PROVINCE OF PRINCE EDWARD ISLAND ESTIMATES PRESENTATION - EXPLANATORY NOTES

INTRODUCTION

The 1998/99 Estimates represent the financial plan of the Province for the fiscal year commencing April 1, 1998, and are presented by the Government in support of its request to the Legislative Assembly for authority to spend public monies. This request is formalized through the tabling of the *Appropriation Act 1998*.

The Estimates and the Provincial Treasurer's Budget Address, along with the subsequent reporting of the financial results in the Public Accounts, assist the Legislative Assembly in holding government accountable for the allocation and management of public funds.

For comparative purposes, the Estimates include the 1997/98 budget and forecast figures, which have been reclassified/adjusted to conform with the 1998/99 presentation.

GROSS BUDGETING

With the exception of crown corporations, expenditures are provided on a gross basis with related revenues not being netted against expenditure. In the case of crown corporations, certain revenues are netted against related expenditure (e.g.: interest revenue against debt service costs), however, federal government revenues on cost-shared programs are normally taken into the Operating Fund and expenditures reflected in gross amounts.

The gross budgeting concept enhances legislative control in that all monies received by the Government are deposited in the Operating Revenue Fund and all disbursements must be appropriated by the Legislative Assembly.

GLOSSARY

The Estimates are presented within the framework of the Chart of Accounts to ensure consistency in presentation and assist in accurate reporting of financial information. The main categories used are:

Current Account

This represents the largest part of government expenditures and includes the day-to-day operational costs. More specifically, it includes salaries, supplies, debt service costs, and operating grants for various programs and organizations such as hospitals and schools. With the exception of directly-related revenue intended to offset the cost of capital projects, all operational revenue is reflected in the Current Account.

Capital Account

These are expenditures of a significant nature, the benefits of which normally extend over more than one fiscal year. The types of expenditures included are construction projects (roads and buildings), major renovation projects, large equipment and land acquisitions.

PRIMARY EXPENDITURE ACCOUNTS

The primary expenditure types set out in the Chart of Accounts and used in this document are listed below. The examples of expenditure included in each primary are not intended to be all inclusive, but do represent the main items.

- (a) Administration rent, telephone, office supplies, postage, property tax and insurance.
- (b) Capital see 'Capital Account' above.
- (c) Debt debt service costs, bad debt expense, bank charges and fees related to debt instruments.
- (d) Equipment office equipment, vehicles, computer equipment and field equipment.
- (e) *Materials, Supplies and Services* field supplies, fuel, utilities, drugs, food, repairs and maintenance.
- (f) Professional and Contract Services consultants, legal services, doctors, dental and nurses' fees, RCMP contract, snow removal contracts and other contract services.
- (g) Salaries remuneration and benefit costs for permanent and casual employees, salaries and indemnities paid to MLA's and Ministers.
- (h) *Travel and Training* travel allowances, air travel, accommodation, vehicle operating and lease costs, in-service training and other training assistance for employees.
- (i) Grants transfer payments to individuals, companies, organizations and quasi-government organizations such as schools and hospitals.

REVENUE SOURCES

The Chart of Accounts includes six primary revenue sources. One source is federal, with the other five being provincial. In more specific terms, these primary revenue accounts are as follows:

- (a) Federal includes conditional and non-conditional transfer payments from the Federal Government such as Equalization, Canada Health and Social Transfer, and Economic and Regional Development Agreements.
- (b) Licenses and Permits revenues from licenses and permits issued under various provincial acts and regulations, the most significant revenue item being motor vehicle licenses and permits.
- (c) Fees and Services revenue received from fees charged for various services provided by government as well as fines and penalties assessed by the Court.
- (d) Sales revenue received for sale of goods. The most significant items included in this primary are revenues generated by the Liquor Control Commission and Lotteries Commission.
- (e) Taxes revenue generated under various provincial tax legislation.
- (f) *Investments* interest revenue resulting from loans to government crown corporations, and other community-based organizations.

APPENDICES

The following Appendices have been included in the Estimates Book as a supplement to the information contained in the main Estimates.

- **Appendix I** Cash Requirements. Appendix I sets out the cash requirements for budgetary and non-budgetary expenditures, loans to Crown Corporations, and other debt transactions.
- Appendix II Schedule of Reclassification of 1997-98 Expenditure and Revenue to Conform to the 1998/99 Presentation. This Appendix is included to give a better comparison of the 1997/98 budget and forecast to the 1998/99 budget in areas where expenditures and revenues have been moved to another or new appropriation vote.
- Appendix III Schedule of Three Year Budget Projections.

HON. WILBUR B. MACDONALD Speaker

DIANE I. MACLELLANClerk of the Legislative Assembly

The Legislative Assembly is Prince Edward Island's most important Government institution. Its purpose and role is to enable the elected representatives of the people to make the laws by which the Province is governed, to debate public issues and the actions of the Executive Branch or Cabinet.

MINISTRY OF THE PROVINCIAL TREASURY

HON. PATRICIA J. MELLA Minister

MIKE O'BRIEN, F.C.A.
Deputy Provincial Treasurer

The mandate of the Ministry is to ensure that the human and financial resources needed by government are available, are allocated in keeping with government priorities, and are used in an efficient, effective, and accountable way.

MINISTRY OF TRANSPORTATION AND PUBLIC WORKS

HON. MICHAEL F. CURRIE Minister

TOM HARLAND, P.Eng. Deputy Minister

The mandate of the Ministry is to provide policy advice to the government on all matters related to transportation and public works; construct and maintain, within available financial resources a safe, affordable, efficient and environmentally sustainable road system for the movement of people and goods within the Province; and provide services to other government departments in the areas of building construction, crown land management, building maintenance, accommodations and telecommunications.
