PROVINCE OF PRINCE EDWARD ISLAND ESTIMATES PRESENTATION - EXPLANATORY NOTES

INTRODUCTION

The 2012-2013 Estimates represent the financial plan of the Province for the Fiscal Year commencing April 1, 2012, and are presented by the Government in support of its request to the Legislative Assembly for authority to spend public monies. This request is formalized through the tabling of the *Appropriation Act (Current Expenditures)* 2012.

Estimates for departments are reported on a gross expenditure basis. Corresponding revenues are deposited in the Operating Fund. Crown corporations that rely on Government for most of their funding are reported on a net expenditure basis within their respective ministries. Crown corporations that operate as Government business enterprises report on a net surplus or deficit basis. These are included on Page 14.

The Estimates and the Minister's Budget Address, along with the subsequent reporting of the financial results in the Public Accounts, assist the Legislative Assembly in holding Government accountable for the allocation and management of public funds.

GLOSSARY

Amortization

Amortization expense is the periodic allocation of the cost of a Capital asset over its useful life. The Province has implemented the straight-line method of amortizing Tangible Capital Assets, which allocates the annual expense in equal amounts over the estimated useful life of the asset.

The Province records Capital revenues received for the acquisition of Tangible Capital Assets as a deferred credit which is recognized as revenue over the same time period that the asset acquired is amortized.

Consolidated Surplus (Deficit) of Crown Corporations

This summary includes Crown corporations whose results have not been incorporated into the line-by-line detail of the Budget Estimates. Several Crown corporations such as: Island Waste Management Corporation and Prince Edward Island Grain Elevators Corporation are Government business enterprises, which by definition do not rely on Government funding to maintain their operations. In accordance with accounting standards, only their net consolidated surplus or deficit is reported in the Province's financial statements.

The remaining Crown corporations/reporting entities are more dependent on Government support. Their budget requirement from Government is included in an appropriation.

Current Account

The Current Account represents the largest part of Government expenditures and includes the day-to-day operational costs. More specifically, it includes salaries, supplies and operating grants for various programs and organizations in Government.

Deficit

A deficit occurs when expenditures exceed revenues for a Fiscal Year.

PRIMARY EXPENDITURE ACCOUNTS

The primary expenditure types set out in the Chart of Accounts and used in this document are listed below. The examples of expenditures included in each primary type are not intended to be all inclusive, but do represent the main items.

- (a) Administration rent, telephone, office supplies, postage, property tax and insurance.
- (b) *Debt* debt service costs, bank charges and fees related to debt instruments.
- (c) *Equipment* office equipment, computer equipment and field equipment that do not meet the definition of a Tangible Capital Asset.
- (d) *Materials, Supplies and Services* field supplies, fuel, utilities, drugs, food, repairs and maintenance.
- (e) *Professional and Contract Services* consultants, legal services, doctors, dental and nurses fees, RCMP contract, snow removal contracts and other contract services.
- (f) Salaries remuneration and benefit costs for permanent and casual employees, as well as salaries and indemnities paid to MLAs and Ministers.
- (g) *Travel and Training* travel allowances, air travel, accommodation, vehicle operating costs, inservice training and other training assistance for employees.
- (h) Grants transfer payments to individuals, companies and organizations.

REVENUE SOURCES

The Chart of Accounts includes six primary revenue sources. One source is Federal and the other five are Provincial, as follows:

- (a) Federal includes conditional and non-conditional transfer payments from the Federal Government such as Equalization, Canada Health Transfer, Canada Social Transfer, Infrastructure Programs and various other Federal agreements.
- (b) *Licenses and Permits* revenues from licenses and permits issued under various Provincial Acts and Regulations, the most significant revenue item being motor vehicle licenses and permits.
- (c) Fees and Services revenue received from fees charged for various services provided by Government, as well as fines and penalties assessed by the Courts.
- (d) Sales revenue received for the sale of goods. The most significant items included in this category are revenues generated by the P.E.I. Liquor Control Commission and the P.E.I. Lotteries Commission.
- (e) Taxes revenue generated under provincial tax legislation.
- (f) Investments interest revenue resulting from loans to Crown corporations, other community-based organizations and deposit accounts.
