

## CCBF - Direct Allocation Fund Disbursements

Over half (53%) of the Canada Community-Building Fund is disbursed through the *Direct Allocation Fund* to incorporated municipalities that supply centralized water and/or sewer services. Funds are allocated based on population for the eight largest PEI municipalities and as a base amount \$100,000 per annum for 17 PEI municipalities with smaller populations.

*\*CCBF allocations are calculated over five-year intervals to allow for adjustments to be made according to new population census figures that become available.*

Ultimate Recipient	2024-29 Allocation
