Home Education Program

For each school year, a parent/guardian interested in providing a home education program for their child must notify the Department of Education and Lifelong Learning of their intention.

Notification can be provided by completing the *Home Education Notice of Parent's Intention for the 2018-2019 School Year* form found on the Department's website

Link: [https://www.princeedwardisland.ca/sites/default/files/forms/home_education - notice of intent.pdf](https://www.princeedwardisland.ca/sites/default/files/forms/home_education_-_notice_of_intent.pdf)

As the provider of a home education program, you are responsible to determine the curriculum, projects, testing, and any other educational needs

The Department of Education and Lifelong Learning does not provide testing to students who have been home schooled and therefore credits and graduation certificates are not provided.

A student attending a home education program may attend one or more courses offered by an education authority in a school year, if, not later than April 15 of the prior school year, the parent/guardian of the student provides written notice to the education authority of his or her intention to enrol the student in a course.

Home education students following the provincial curriculum may obtain learning resources through the Provincial Learning Materials Distribution Centre (PLMDC). A refundable deposit of \$50.00 (per child/grade level) is required. The *Request for Learning Resources* form can be found on the Department of Education and Lifelong Learning's website.

Prince Edward Island curriculum documents are also available on-line:
