

CONTRACTORS AND ENERGY EFFICIENCY

Join the Network of Excellence

If you're an Island contractor, join the Network of Excellence (NoE) for exclusive benefits from efficiencyPEI

Network of Excellence Membership

The Network of Excellence is a group of local contractors who deliver energy efficiency upgrades and ensure that efficiencyPEI clients receive high quality, consistent and reliable service

To be eligible for rebates:

Heat pumps must be supplied and installed by a Network of Excellence contractor

Solar PV systems must be installed by an approved Network of Excellence contractor

Interested in becoming an NoE member? Please contact efficiencyPEI at 1-877-734-6336 or email efficiencypei-noe@gov.pe.ca to receive a copy of the Participation Agreement

Benefits

Being a member shows clients that you do energy efficiency work, meet provincial regulations and standards and have agreed to follow a code of conduct established by efficiencyPEI

Because you are one of our trusted Network of Excellence members, applications can be processed more efficiently and your clients may receive their rebates more quickly

Your business will be listed on our Network of Excellence website. This searchable online listing can be accessed by the public anytime day or night

In addition to the promotional opportunities provided, efficiencyPEI provides members with:

- Ongoing workshops
- Continuing education
- Consistent updates on changes to rebate programs
- Trade specific training
- Marketing opportunities

Stay informed and communicate benefits with your clients about energy efficiency incentives that will lower their energy use, save money, help the environment and grow your business!

Island contractors make energy efficiency possible for Island homes, businesses and community groups

Contractors influence the decision of Islanders when it comes to upgrades or renovations, and they can help residents save money and reduce energy use

To learn more, visit PrinceEdwardIsland.ca/en/topic/efficiency-pei

Rebates, incentives and instant savings to help you save money on your energy bills and make your home more comfortable

Energy Efficiency Equipment Rebates

Point of Sale rebates are available exclusively through NoE contractors for the installation of mini-split heat pumps, while other ENERGY STAR® certified heating equipment including geothermal heat pumps, water heating devices, biomass heating devices, and other energy saving products are also available to consumers direct

If you are interested in financing for the up-front costs, learn more about the Residential Home Heating Loan Program. If you would like a loan, you must apply for the loan before you install your equipment

For a heat pump rebate or a solar rebate, get started by contacting a Network of Excellence contractor. Look up a contractor near you at PrinceEdwardIsland.ca/Network

Solar Electric Rebates

Homes - \$500/kilowatt DC installed, up to 40% of installed costs, to a maximum of \$5,000

- To be eligible, the building must receive the residential rate on the electric bill

Businesses - \$350/kilowatt DC installed, up to 40% of installed costs, to a maximum of \$10,000

- To be eligible, the building must receive the general service 1 rate or the small industrial rate on the electric bill

Farm buildings - \$1250/kilowatt DC, up to 40% of installed costs, to a maximum of \$35,000

- Must be a non-residential building owned and operated by a bona fide farmer

Winter Warming

- Tenants and homeowners with low-to-moderate income can access free air-sealing and energy efficient upgrades

Home Improvement

Rebates, incentives and instant savings to help you save money on your energy bills and make your home more comfortable

New Home Construction

- Start with a building plan assessment before you build
- Up to thousands of dollars of rebate based on final constructed building energy performance

Home Insulation Rebates

- Starts with a home energy assessment
- Rebates on insulation and air sealing improvements as well as ENERGY STAR® windows and doors

Completing your project

- Energy efficiency advice through a home energy assessment to get you the right information on how to reduce your energy bills

Home Energy Assessments

- \$99 plus tax for homeowners

Energy efficiency advice through a home energy assessment to get you the right information on how to reduce your energy bills with advice from a Certified Energy Advisor

To qualify for the provincial government Home Insulation or New Home Construction rebate, you must have an energy audit conducted by one of our energy partners
