

How to Prepare Your Recyclables

Caps off and debris free

This makes a safe and clean product for everyone.

Empty all containers

Ensures containers are clear of contaminants.

Do not crush cans

Aluminum cans are baled for market. When they are crushed they do not bale as well.

Do not remove labels

Labels help with sorting the different products for market.

No broken glass in blue bag

Safer for everyone!

Only containers purchased in Prince Edward Island are eligible for a refund.
