EXPLANATORY NOTES

SECTION 1 amends section 1 of the regulations to correct a minor wording error by adding the word “certificate” in substitution for the term “Trades Qualification Certificate” which is no longer used in the *Apprenticeship and Trades Qualification Act*. It also revokes clause (j.2) to remove the definition of “contractor’s restricted license”, which is no longer being used in the regulations, and clause (p), which defines “public buildings”, a term not used in the regulations, and adds a new clause (p.2.1) to define the new term “restricted license”.

SECTION 2 revokes section 2 of the regulations and replaces it with new subsections 2(1), (2) and (3) to eliminate the term “electrical installation” and substitute the term “electrical equipment and products”, and clarify the application of the section.

SECTION 3 amends subsection 5(1) of the regulations by deleting the word “contractor” and substituting the word “person”. It also revokes the current subsection 5(2) and substitutes subsections (2), (2.1) and (2.2) to deal with the qualifications for a contractor’s license in greater detail.

SECTION 4 revokes subsection 6.1(1) of the regulations and substitutes a new subsection (1) to clarify the process for issuing a restricted license to a qualified applicant. It also amends subsection 6.1(2) to delete the word “contractor’s” from the name of the license to be issued.

SECTION 5 amends subsection 7(3) of the regulations to add the word “permit” and delete the date of December 31, 2006. This clarifies that a person who holds a certificate of proficiency or permit issued under the *Apprenticeship and Trades Qualification Act* is authorized to work on electrical installations under the supervision of a contractor.

SECTION 6 amends Schedule 1 to the regulations by deleting the term “inspection” and substituting the term “electrical permit” in items 1.1 to 1.7, so that the fees for those items will now be fees in respect of a permit rather than an inspection.

SECTION 7 revokes Schedule 2 and replaces it with a new Schedule 2 that sets out itemized fees for various services.

SECTION 8 amends Schedule 3 to the regulations by increasing the fee for review of plans and specifications from \$30 to \$40 per half hour, and by adding a new item 3.5 that requires an inspection fee of \$65 per hour, plus travel costs, to be paid for an inspection that is requested to be carried out outside normal business hours.

SECTION 9 amends Schedule 4 to the regulations by revoking item 4.1 and replacing it with a new item 4.1 setting out the fees for contractors’ licenses, restricted electrical licenses, registered technician licenses and

special licenses. The section also revokes item 4.2 and replaces it with a new item 4.2 that establishes a \$200 fee for an employer's annual permit, regardless of the number of employees.

SECTION 10 revokes Schedule 5 to the regulations and replaces it with a new Schedule 5 that prescribes restricted areas of electrical work. In addition to the areas that are currently restricted, Schedule 5 now also covers installation, testing, maintenance and repair of lightning rod systems as required by the applicable national standard, and maintenance and repair of commercial and industrial lightning systems with a capacity of 347 volts or less. The new Schedule also provides a definition of "communication system" that clarifies which aspects of communication systems are restricted areas of work.

SECTION 11 provides for the commencement of these regulations.

SCHEDULE B

USE AND INTERPRETATION OF THE NUMBERING SYSTEM OF THE CANADIAN ELECTRICAL CODE, PART I

The following is quoted from the Code:

The Code is divided into numbered sections, each covering some main division of the work. The sections are divided into numbered rules with captions for easy reference.

(a) Numbering System - even numbers have been used throughout to identify sections and rules. Rule numbers consist of the section number separated by a hyphen from the 3 or 4-digit figure. The intention in general is that odd numbers may be used for new rules required by interim revisions. Due to the introduction of some new rules and the revocation of some existing rules during the revision of each edition, the rule numbers for any particular requirement are not always the same in successive editions;

(b) Subdivision of Rules - Rules are subdivided in the manner illustrated by Rules 8-204 and 8-206 and the subdivisions are identified as follows:

00-000	Rule
(1)	Subrule
Paragraph	(a)
Subparagraph	(i)
Clause	(A)

(c) REFERENCE TO OTHER RULES, ETC. Where reference is made to two or more rules, the first and last rules mentioned are included in the reference. References within a subrule to other subrules mean the subrules of that rule. References to a subrule of another rule are, for convenience, expressed by the rule number followed by the subrule number in parentheses (e.g. "Rule 10-200(3)" and "Subrule (3) of Rule 10-200").

EXPLANATORY NOTES

SECTION 1 provides definitions of "Code" and "Department" for the purposes of the regulations.
