EXPLANATORY NOTES

SECTION 1 amends a number of definitions, adds a definition of “operator-in-charge” and repeals definitions of “small public drinking water supply facility” and “small wastewater collection facility”, as these terms are no longer used in the Act.

SECTION 2 replaces a reference to “Department” with “Minister”, as it is the Minister who is a legal person able to act. A Department is not a legal person. The section revokes two provisions that repeat requirements in the Act and revokes and replaces another provision with better wording. It adds a provision indicating that a facility classification certificate is valid until it is revoked or replaced by the Minister.

SECTION 3 revokes and replaces a provision with better wording.

SECTION 4 requires the designation of an operator-in-charge of a facility. It also replaces references to “operator” with “operator-in-charge” and a reference to “Department” with “Minster”.

SECTION 5 provides exceptions to section 4. It permits the owner of a Class A water distribution facility to designate a person with certain plumbing qualifications as the operator-in-charge of a Class A water distribution facility. It also permits the designation of a person who holds a Class B operator’s certificate as the operator-in-charge of a Class I wastewater collection facility that serves less than 250 persons. It also provides a transitional provision under which a person who holds a small facility operator’s certificate is deemed to hold a Class B operator’s certificate on the coming into force of the section.

SECTION 6 replaces references to “Department” with “Minister”.

SECTION 7 corrects the title of the Chief Public Health Officer.

SECTION 8 sets out the drinking water monitoring requirements for semi-public drinking supply systems and Class A and Class B public drinking water supply facilities.

SECTION 9 clarifies that section 11 of the Act applies to public drinking water supply facilities that are classified as a Class I, II, III or IV water distribution facility or water treatment facility.

SECTION 10 provides additional monitoring requirements for semi-public drinking supply systems and Class A and Class B public drinking water supply facilities that are not operated year round.

SECTIONS 11 - 15 replace references to “Department” with “Minister”.

SECTION 16 amends Schedule A of the regulations by revoking and replacing provisions respecting the classification of facilities. It also revokes and replaces Table 1, removes redundant wording in Tables 2 and 3 and replaces references to “operator” with “operator-in-charge”.

SECTION 17 amends Schedule B of the regulations by replacing references to “Small Facility” with “Class B” and to “direct responsible charge” or “DRC” with “direct responsible charge experience” or “DRC experience”.

SECTION 18 revokes and replaces Schedule C of the regulations.

SECTION 19 provides for the commencement of these regulations.
